Additional Information	
9	Special Resins for FH and NE
Ribbon Assembly and Core Make Ups	
10	Assembly Codes and Ribbon Configuration

On the following pages you will find our stocked items of the standard slitting range in the following tables with a table of the ribbon assembly codes at the end of this section. All sizes are on 1" cores apart from the Zebra / Eltron desktop range which are made on Y35 ½" cores. Other sizes than those listed here are available on request. We can slit almost every size and fit to any core size made to your specification. Please ask for details. Due to changing demands availability cannot always be guaranteed. Thank you for your understanding.
